FY13 filings are based on hospital's unaudited or internal financial statements.

Data Sources: Data drawn from CHIA quarterly and annual filings.

CAVEATS: Annual data is reconciled to Audited Financial Statements. CHIA filings may not reflect all of the financial resources available to the hospital -- for example, resources available through associations with foundations or parents/affiliates. Financial information must be interpreted within the context of other factors, including, but not limited to, management plans, reimbursement changes, market behavior, and other factors affecting performance. Hospitals may not report data for all metrics listed above. Profitability percentages may not add due to rounding.

Notes:

[1] According to the Medicare Payment Advisory Commission (MEDPAC), a major teaching hospital and Academic medical centers, are those hospitals with at least 25 FTE residents per 100 inpatient beds.

[2] Northeast US 2012 Median data publishing in the "Almanac of Hospital Financial Operating Indicators", 2013 OPTUM

[3] Blank value indicates a facility with no current long term debt in the period covered. Ratio not reported on a quarterly basis.

[4] Earlier ratios have been revised to return a ratio even if there is no long term debt. Ratio not reported on a quarterly basis.

[5] Net Patient Service Revenue includes Premium Revenue.

[6] The fiscal year for Cambridge Health Alliance, and Mercy Medical Center ends on 6/30. Metro West Medical Center, Saint Vincent Hospital and the Steward Hospitals ends on 12/31. The most recently available data as of December 31, 2013 is used for the hospitals that do not have September 30th year ends.

[7] Beginning with FY13, the provision for bad debt is reported as a deduction from patient revenue. This format differs from FY12 where this amount is reported as an expense.
